Learning...Sharing...Growing

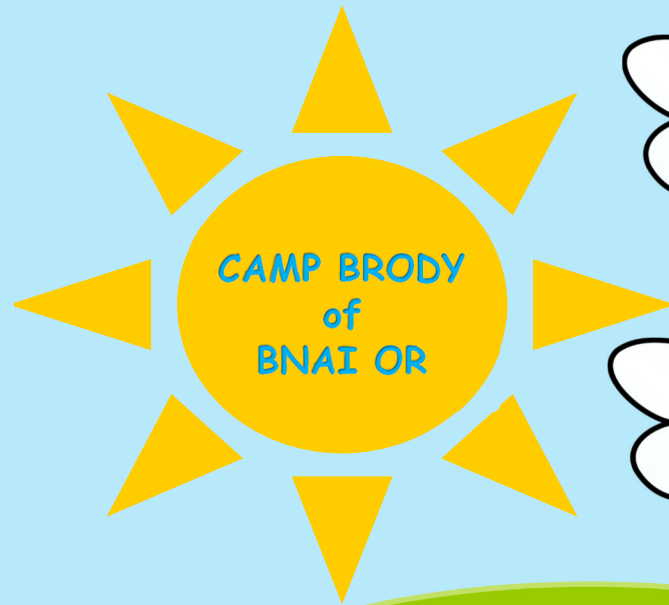

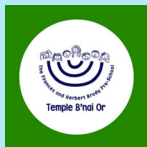

For children 2-5 years

In our beautiful setting, we experience nature, play sports and games, enjoy our fenced in playground, and cool down with water play

Our performance classes let us express ourselves through movement and music. Arts and crafts provide a creative outlet and a time for self expression.

Science and cooking round out our fun. With experiments and treats, we learn and enjoy each lesson more than the last.

About Our Program

Parents can choose a 3,4,5 or 6 week experience for their children 2-5 years old (Pre-K). Our program has been designed to create the ultimate camp experience for children within this age group. Our scenic grounds and spacious air conditioned building allow for an incredible array of activities.

Each week features a fun new theme that campers will participate in **Tuesday-Thursday** which will include exciting project, special guests, a cooking activity as well as an end of the week showcase. **Mondays** and **Fridays** are optional add-ons and will be structured as Camp Fun Days filled with our everyday activities including crafts, water play, songs and of course lots of outdoor time.

Flexible scheduling allows you the option of choosing Mondays/Fridays to fit your camper's summer schedule.
