

*“The world’s greatest resource is the mind of its children”...Walt Disney*

## ENRICHMENT PROGRAMS 2019-2020

**T**he Frances & Herbert Brody Pre-School of Temple B'nai Or offers children the opportunity to explore and grow through enrichment.

We are providing programs that reach children on multiple levels, using a variety of teaching styles, and expanding their knowledge through experiential learning.

Join the journey and see the rewards as your child(ren) expand their horizons.

Take the leap to a lifetime of loving to learn.

## Monday 1:00-2:30

### MAKERS & SHAKERS

Challenging our minds and creativity, we will use everyday objects to build working mechanical inventions. Starting with Rube Goldberg machines, which break down a simple task into multiple steps, the children will have an opportunity to plan, execute, and observe what it takes to make something work.

As we utilize the strategies of STEM (science, technology, engineering and math) in a developmentally appropriate manner, the children will learn how to work collaboratively and independently. Stretching their imaginations, they will enjoy the satisfaction of success and learn from the agony of defeat. Regardless of outcome, by following the guidelines set forth by the "maker movement", our students will reap the vast rewards of being a maker and a shaker.

## Tuesday 1:00-2:30

### SPORT SQUIRTS

This program has been designed to introduce young children to a variety of sports in a safe, structured environment. All games and activities encompass hand/eye coordination, balance, agility and **MOVEMENT** – all key factors to the early development of children in sport. In addition to having a great time playing different sports, children will develop social interaction and communication skills. All sports are developed through a series of games and activities designed to ensure learning, enthusiasm, and fun.

## Wednesday 1:00-2:30

### HAPPY & HEALTHY: Mind, Body & Soul

Grab your gardening gloves, chef's hat and yoga mat for an introduction to wellness. We will **EXPLORE** care of our earth through tending our own garden, experience healthy eating by cooking delicious, nutritious food, and care for our bodies through yoga exercises.

Each week we will gain an understanding of the harmony between the world and ourselves. Food allergies will be monitored.

Explore, Create, Imagine, Build

## Thursday 1:00-2:30

### MINI MICHELANGELOS

Beyond the masterpieces your child creates in the regular school day, we will **FOSTER** your child's creativity by introducing them to the masters of all mediums. We will provide a hands-on exploration of photography, watercolors, sculpture, collage, architecture, fashion, and other forms of artistic expression. Each topic will produce a finished piece of artwork, in addition to some basic art history knowledge. You may find your child questioning why you have a post-modern piece of artwork in your colonial style home. Did we mention that it's fun too?

## Friday 1:00-2:30

### SUPER DUPER SCIENCE

Grab your magnifying glass, and follow the trail to science fun. Chemistry experiments, archaeological digs, museum presentations, nature studies – these are just a few of the exciting explorations we will embark on in each class. We will not only think like scientists, we will be the scientists. Quenching your child's thirst for **KNOWLEDGE** and satisfying their continuous curiosity, learning will be the added benefit to all the fun we will have.
